

WRITTEN PRACTICE ANSWERS

- 1** 1000; sample: there are 100 ones in 100, 10 tenths in one hundred, and $100 \times 10 = 1000$.
- 2** a. Multiply the number of octopuses by 8.
b. 160 legs
- 3** 500
- 4** 30 pounds
- 5** 15 inches
- 6** $>$
- 7** 1
- 8** a. $\frac{3}{10}$
b. $\frac{7}{10}$
- 9** 1.4 cm
- 10** $>$
- 11** $1\frac{5}{8}$ pounds
- 12** 520 yards
- 13** 75 mm
- 14** 173,973
- 15** 18,039
- 16** \$1.43
- 17** 938
- 18** 386,553
- 19** \$5600.00
- 20** $\frac{1}{3}$
- 21** $\frac{3}{4}$
- 22** 15,120
- 23** \$9.93
- 24** a. 6 substitutes
b. C
- 25**
- Frequency Table
- | Number of Letters | Tally | Freq. |
|-------------------|-------|-------|
| 3 | | 1 |
| 4 | | 2 |
| 5 | | 2 |
| 6 | | 1 |
| 7 | | 2 |
| 8 | | 3 |
| 9 | | 1 |
- 26** 10.1
- 27** Sample: 
- 28** Sample: About 3 museums per day; 21 is more than 20, and $21 \div 7 = 3$.

WRITTEN PRACTICE ANSWERS

29 About 20,000 hectares;
sample: multiplying a
number by 10 is the same
as moving the decimal
point in that number one
place to the right; 2000
 $\times 10 = 20,000$.

30 See student work; $n = 3$.

Early Finishers:
